Clothes Dryers

Our story begins in 1956 when 6 entrepreneurial man, engineers and businessman, together founded what would soon become one of the world's largest corporations. Today our low and high voltage motors power the largest machines across mining, quarries, oil platforms, cement plants, refineries, sugar mills, power plants, dairy processing plants, pulp & paper and even the US navy aircraft carriers. Teco are known and respected for our product quality and reliability, we are a chosen brand for the most difficult applications and environments. Teco are a diversified company, with expertise across multiple sectors. Our telecommunication devices help people come close together. Our IT solutions make businesses run more efficiently. Our automation systems help industry run with precision and total control. Our wind turbines generate green energy; and our in-wheel electric motors power emission-free electric vehicles around Asia. Our commercial and home appliances provide comfort to homes and businesses all around the world. This is the Teco Group, a successful global company with 25,000 employees dedicated to making a difference.

In Australia we have been the market leader in industrial motors, and our home appliances have been a quiet achiever in many Australian homes. Although we humbly do not talk about our achievements, the truth is that we provide cooling, refrigeration and TVs to many mine sites in the harshest places such as the Pilbara and Kalgoorlie. Equally we have supplied many accommodation villages such as for the Gladstone LNG projects. With Teco you can take comfort knowing our heavy industrial background breeds quality and reliability across all that we do. Our local sales and service team is here to ensure you have support throughout the product life cycle. When you buy Teco, you are acquiring a product engineered to perform, providing the comfort you seek.

TWM50FA

1300 660 037

TWM80TAM

## Features available to both 6Kg & 8Kg Top Load Clothes Washers

### Pulsator Wash Action –

With a powerful pulsator, the TECO top load clothes washers make light work of heavily soiled laundry but also gentle on delicate fabrics.

### Child Lock –

Prevent little fingers or accidental button presses by activating child lock on the control panel.

### Auto Power Off –

Once the wash program is complete, the TECO clothes washer automatically powers off, saving you energy.

### Detergent & Softener Dispenser –

Each TECO Top Load clothes washer is fitted with a convenient detergent and softener dispenser. This ensures even distribution at the right time during the wash program. Ensure correct dosage is used as recommended by the detergent and softener manufacturer which can be found on the packaging.

### Delay Start –

1 ~ 48 Hour delay start option.

TWM60TAMMBD

### 6 Wash Programs –

Each wash program has been Engineered To Perform and wash most fabrics. Everything from heavily soiled clothing to delicate fabrics.

### Water Level Selection –

Choose between six (6) predefined water levels to ensure each wash has sufficient water depending on the load size.

### LED Digital Display –

Easy to read digital display. Multi purpose display, makes it a breeze to select a program, functions and ensure correct selection for each wash.

### 700 RPM Spin Speed –

With a powerful motor that can produce 700 RPM spin speed, the TECO Top Load washes and spins at incredible speed ensuring a thorough wash and soil removal.

### Auto Unbalance Sensor –

No more wobbling and banging from your clothes washer. With a TECO Top Load Clothes Washer, the unbalance sensor alerts you whenever the laundry shifts to one side requiring redistribution around the bowl.

\*\*Illustration purposes only

Efficient top load clothes washers

1300 660 037

**Features Available to the following models:**

TWM80TTAMFBE & TWM100TTAMFBE

**Simultaneous Wash & Spin –**

Efficiency at work. Wash and spin at the same time. This saves you energy while reducing wash time.

**Dual Independent Motors –**

Unique to TECO, the powerful dual independent motors allow simultaneous wash and spin functionality.

**Water Inlet Selector –**

Conveniently switch between wash and spin to control which section of the twin tub to receive water.

**Internal Drain Pump –**

An efficient and powerful internal drain pump makes light work of used wash and spin water.

**Overflow Protection –**

Forgetting to turn off the tap when filling the wash or spin tub will not instantly result in a flooded laundry. With TECO's Twin Tub overflow protection, the external tub will collect the excess water and help prevent messy leaks.

**Easy-To-Use Controls –**

No complicated programs, button pressing or settings. With TECO Twin Tubs, it's as easy as a twist of a dial.

**1350 RPM Spin Speed –**

TECO Twin Tubs have a dual motor that is capable of speeds up to 1350 RPM. This means faster spin speeds and a thorough clean. Water is more efficiently passed through laundry items. This helps circulate detergent and remove dirt.

# Auto Sensing Clothes Dryers

**TECO**  
"Engineered To Perform"

## Features common to both TCD70ASAM and TCD70ASCAM

### 180° Door Access –

The door fitted on the TECO Vented Clothes Dryer, opens to a complete 180°, allowing complete access into the drum. This makes it easier to load and unload items.

### Child Lock –

Prevent little fingers or accidental button presses by activating child lock on the control panel.

### LED Display –

Easy to read digital display makes it a breeze to select a program, functions and ensure correct selection for each program.

### Anti-Crease Function –

Intuitive features prevent over drying of items. This feature can save you time and assist in reducing wear on some fabrics.

### Auto Sensing Control –

This clever feature ensures the dryer only runs while your items are wet and will stop once they are dry. This cuts down on running time and energy.

### Thermostat Protection –

Built in safety features prevent over heating. With TECO Clothes Dryers, thermostat protection can prevent damage to the appliance and laundry items.

### Easy Access Lint Filter –

Inside the door opening is the easily accessible lint filter. Simply lift away for cleaning and routine maintenance.

TCD70ASAM

## Features Unique to TCD70ASAM - 7Kg Vented Clothes Dryer

### Wall Mountable –

This TECO Vented Clothes Dryer comes with a wall bracket kit that enables you to hang the dryer on the wall. Once mounted, swap the control decal for correct operation and positioning.

### Front Vented –

The front vent assists in the removal of moist air from inside the clothes dryer. Efficiently drying fabrics and laundry items.

### Electronic Touch Control –

This TECO Clothes Dryer operates at a touch of a button. Simple touch controls make it easy to select programs and functions.

TCD70ASCAM

## Features Unique To TCD70ASCAM - 7Kg Condenser Clothes Dryer

### Delay Start –

1 ~ 24 Hours.

### Rotary Electronic Program Selector –

The rotary program selector makes it clear and easy to select a drying program.

**11 Drying Programs** – Choose from eleven (11) different drying programs to suit just about any laundry drying requirement. This ensures the correct temperature, duration and features needed for a vast list of fabrics and items.

### 375mm Door Opening Diameter –

Large door opening makes it easier to place and remove larger items, such as towels and blankets. Just another feature that proves TECO is **Engineered To Perform.**
