

AVAILABLE SOON

TECO Australia Electric Motor App

Introducing a collaboration of technical data, years of experience and a wealth of information at your finger tips. The TECO Electric Motor App makes it possible to access all the information you need when on site, troubleshooting or maintaining your TECO equipment.

The app has cleverly designed selectors that make finding what you need quick and simple.

KEY FEATURES :

• Motor Selector

Enter a few details and search specifications, technical drawings and more.

• Drive Selector

After choosing the application, use the provided drop down selections then hit search.

You can then access data sheets, see a description and also request a quote directly from the app.

• Motor Equivalent Finder

Once you select a competitor and a motor, the app will present an equivalent TECO motor.

You can then find a compatible drive, read full specifications and basic information.

• Energy Savings Calculator

Enter the motor credentials and the calculator will show you how much a TECO motor can save you each year or over the life of the motor.

• Maintenance & Troubleshooting

Follow the on-screen questions and be guided through the intuitive troubleshooter.

Access technical manuals from this section if necessary.

• Technical Library

Browse through mechanical or electrical data. View the useful formulae sheet and several documents regarding drives.
